

Seed Soil Sun- Learning about Wisconsin Crops and Plants

Student's Name _____

Wisconsin is very fortunate to have a wide variety of crops and plants grown in the state. It also has a rich history of soil conservation and stewardship of the land.

The following are just a few websites that you can visit to learn more about Wisconsin crops, plants, soils and other related topics. Students can use these websites to create a follow-up project after reading the book *Seed Soil Sun* that could be used for a poster, MS PowerPoint, demonstration speech, science fair project, or other activity.

Pick at least three websites to explore (circle them).

- Wisconsin Corn Promotion Board- <http://www.wicornpro.org/>
