

## How did that get in my lunchbox? The story of food

The Wisconsin Farm Bureau Foundation and Ag in the Classroom Program presents a companion lesson and activity booklet for the 2013 Book of the Year. Order forms for the book can be found by visiting [www.wisagclassroom.org](http://www.wisagclassroom.org).

### Meet the author- Chris Butterworth

Source: American Farm Bureau website

The American Farm Bureau Foundation for Agriculture presented its fifth “Book of the Year” award to Chris Butterworth for “How Did That Get In My Lunchbox? The Story of Food.” The book shows young readers how each ingredient made its journey to their lunchbox. Illustrations, by Lucia Gaggiotti, highlight many aspects of farming and include information on food safety and nutrition.

Butterworth, a native of England, is the author of more than 70 nonfiction books for children, covering a diverse range of issues. “There’s always something else to find out about, and writing about a thing is the best way to find out about it,” said Butterworth. “I started writing information books when my own children were little. I couldn’t find the sort of book I wanted them to read, so I wrote one of my own.”

This spirit clearly resonates in How Did That Get In My Lunchbox? In the book, Butterworth shows her enthusiasm for food and for instilling in young readers an appreciation for our food’s journey. The book has received numerous accolades. The School Library Journal called it “a great springboard to units on food and nutrition.” The Library Media Connection said, “Results of reading this book include a greater understanding of the farm-to-table methodology.”

The Book of the Year award springs from the foundation’s effort to identify “accurate ag books,” a collection of more than 400 books for children, teenagers and adults that accurately cover agricultural topics. In addition to their accuracy, Book of the Year selections are educational, reflect farmers’ and ranchers’ love for the land and what they do, create positive public perceptions about agriculture, inspire readers to learn more and touch their readers’ lives as well as tell the farmer’s story. The Accurate Ag Books database is available at: <http://www.agfoundation.org>.

**Note: The activities developed by Wisconsin Farm Bureau for this book can be found at [www.wisagclassroom.org](http://www.wisagclassroom.org) . Answers and educational standards can be downloaded from the website.**
