

Student name _____

How did that get into my lunchbox? - Growing Apples!

Cut out squares and mix up the order. With a partner or small group, place the squares in the correct order for growing apples.

Trees will flower	Bees pollinate the flowers	Buds grow from flower stalk
Harvest apples	Move apples to the factory	Sort the fruit
Wash	Mash	Press the mashed to remove juice
Heat (pasteurize) the juice	Pour juice into carton	Transport to stores
